*Comprehensive Course in Implant Dentistry
conducted in a small group setting with Individual Attention*

This Series of 8 Sessions will provide you with a firm foundation in Implant Dentistry incorporating cutting edge current advances

“ This is a Hands-On Course”

IAADent is committed to provide the best possible education for the General Dentist

This course offers a unique educational opportunity featuring a proven curriculum for a successful Implant Practitioner.

In 8 two day sessions over 14 months, the IAADent Course provides participants with ample opportunity both to learn and to apply the new techniques.

Each session incorporates Hands-On and or Live Surgery observations.

Participants will develop actual cases from their own practices, beginning with Diagnosis and Treatment planning, progressing through surgical guide fabrication and 3-D image analysis and culminating in implant placement.

Dr Lee will share his knowledge gathered from decades of learning and insight gained from working with different implant systems. You will learn many clinical pearls which can be applied in your practice.

Dr Lee has been placing and restoring implants since 1989. His training has taken him around the world. Training includes a Masters in Germany, being a Visiting Fellow in the Catholic University Daegu South Korea and Columbia University in New York.

Dr. Kenneth Lee

- B.D.S. (Syd Uni.), IBO, Grad. Dip. of Health Sci.
- MSc (Frankfurt Univ)
- Master of Oral Implantology (Goethe Univ)
- Professor Universitat Jaume I
- Fellow International College of Dentists
- Fellow Pierre Fauchard Academy
- Fellow & Diplomate of International Congress of Oral Implantologists (ICOI)
- Fellow American Association of Functional Orthodontics (AAFPO)
- Fellow International Academy of Dento-Facial Esthetics (IADFE)
- Fellow American Academy of Craniofacial Pain (AACCP)
- Diplomate & International Board Member WAUPS
- President International Association for Orthodontics (IAO) 2015/2016
- Fellow, Diplomate and Master Senior Instructor IAO
- Chair of Education IAO

“ This Course is a must!!! It is without doubt, one of the top 5 comprehensive implant courses in the world. After finishing this course, you will have the confidence and passion to make implantology a significant part of your practice.”
Dr Steve Gallela, Memphis, TN

“Life changing course....mind changing as well....It has opened my eyes on so many things, things I didn't see or notice before in patients mouth.”

Dr Y. S.

“I really learnt a lot from IAAD implant course, its the best course I have ever done in dentistry, so thorough and it all makes sense and instructors Dr Kenneth Lee and Dr Jonathan Low are so approachable and patient to learn from”
Dr E. C.

“The IAAD Comprehensive Implant Course is a practical, hands-on course that has given me the knowledge and skills needed to provide the best implant treatment for my patients.

It has renewed my passion for learning and continuous professional development by changing the way I view my role as a general practitioner.

Since completing the course, I have had a more holistic and advanced understanding of dentistry, and patients have consistently commented on the thoroughness of my treatment”

Dr J.Y. Choi

To Ken,

“ You have opened my eyes to the world of cutting edge implantology.

Your level of knowledge, skill, positive nature and interactive communication throughout your seminars, has been truly inspirational.

My quest for learning and rehabilitating patients with implants has certainly been ignited.

Your sessions on Implantology was equivalent to me attending 15years of other implant courses”

Dr R. P (Experienced Implant Dentist)

Dr. Jonathan Low

- B.D.S Hons (Syd Uni)
- Fellow of International Congress of Oral Implantology
- Member of Australian Society of Implant Dentistry
- Treasurer/Secretary of Australasian Association of Orofacial Orthopaedics
- Certified Senior Instructor of the International Association for Orthodontics
- Fellow of IAO

All sessions will be 9am to 5pm Friday and Saturday

Location : Level 2, 394 Lane Cove Rd, Macquarie Park NSW 2113 (Hyundai Building) –
Offices of Minimax

Session 1	13 th – 14 th March 2020	Introduction to Dental Implants Rationale for Implants Implant Design Human Anatomy Bone Density Based Drilling Diagnosis and Treatment Planning- an overview Radiology for Implants Basic Suturing Principles – Types of sutures & which to choose, when
Session 2	3 rd – 4 th July 2020	Bone Evaluation Surgical Site Considerations Surgical setup and instruments Blood – CGF Bone Augmentation Materials Screw Type Systems Press-fit Systems
Session 3	18 th – 19 th September 2020	Mini-Implants Surgical Sites Understanding CT Scans (CBCT) Prosthetic Considerations and Classifications Screw vs Cement Retained Restorations Implant Related Occlusion Occlusal Design Patterns CAD/CAM Prosthetic Procedures- Impression taking and delivery
Session 4	13 th – 14 th November 2020	Prosthesis CT reviews Single and multiple implants PIEZO surgery – Advantages of PIEZO Implantology
Session 5	19 th – 20 th February 2021	Osteotome Technique Sutures Introduction to Micro-implants GBR and GTR Techniques – Principles, Indications, Graft materials, membrane types
Session 6	26 th – 27 th March 2021	Concentrated Growth Factors Ridge Splitting and Sinus Lifts/Grafts CGF/Fibrin Soft Tissue Management GBR/GTR continued Lateral Wall Sinus Lift/ Graft – Anatomy, Techniques and Materials
Session 7	16 th – 17 th April 2021	Advanced Lateral Wall Sinus Lifts The future and science of sinus lifting Lateral Wall Sinus Lift/Graft – complications Ultra-wide Implants General complications
Session 8	TBA	THE TOTAL IMPLANT DENTIST Bringing together bone biology, prosthetic engineering and soft tissue

Live surgery observations are planned for Sessions 1,3,5,6,7 and 8
Procedures include, socket preservation, bone augmentation, CGF use, sinus lifts, implant placements, TME placement, impression taking and issuing of prosthesis

Sessions

Session 1 13th -14th March 2020

Introduction to Dental Implants
 Rationale for Implants
 Implant Design
 Human Anatomy
 Bone Density Based Drilling
 Diagnosis and Treatment Planning- an overview
 Radiology for Implants
 Basic Suturing Principles –
 Types of sutures & which to choose, when

Session 2 3rd – 4th July 2020

Bone Evaluation
 Surgical Site Considerations
 Surgical setup and instruments
 Blood – CGF
 Bone Augmentation Materials
 Screw Type Systems
 Press-fit Systems

Session 3 18th – 19th September 2020

Mini-Implants
 Surgical Sites
 Understanding CT Scans (CBCT)
 Prosthetic Considerations and Classifications
 Screw vs Cement Retained Restorations
 Implant Related Occlusion
 Occlusal Design Patterns
 CAD/CAM
 Prosthetic Procedures- Impression taking and delivery

Session 4 27th – 28th November 2020

Prosthesis
 CT reviews
 Single and multiple implants
 PIEZO surgery – Advantages of PIEZO Implantology

Hands-On Components

Occlusal Analysis
 Muscle Palpation
 2D & 3D diagnosis and treatment planning

Suturing Techniques
 Surgical room setup, Gloving and gowning :
 Aseptic technique
 Introduction to CGF - Demo
 Incisions on models and implant placement

Impression techniques; open and closed tray systems
 Pick-up, transfer, abutment level
 Implant Placement (Slimline)

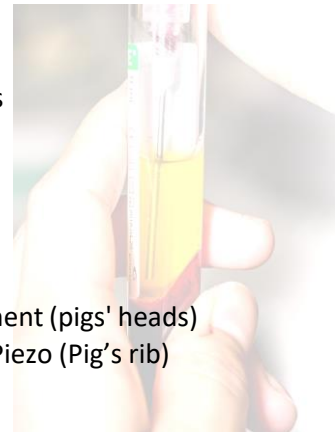

Intra-oral scanning & manufacturing process (CAD/CAM)
 Piezo and advanced prosthetics
 Piezo (using eggs) hands-on

Session 5 19th – 20th February 2021

Osteotome Technique
Sutures
Introduction to Micro-implants
GBR and GTR Techniques – Principles, Indications,
Graft materials, membrane types

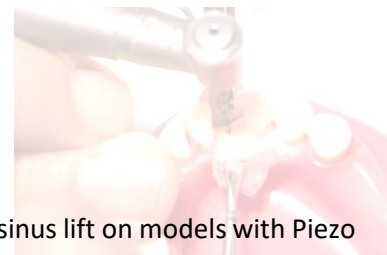

Micro-implants
Osteotome Exercises
TAD's Hands-On

Session 6 26th – 27th March 2021

Concentrated Growth Factors
Ridge Splitting and Sinus Lifts/Grafts
CGF/Fibrin
Soft Tissue Management
GBR/GTR continued
Lateral Wall Sinus Lift/ Graft –
Anatomy, Techniques and Materials

Soft tissue management (pigs' heads)
Ridge splitting with Piezo (Pig's rib)
CGF Hands-On

Session 7 16th – 17th April 2021

Advanced Lateral Wall Sinus Lifts
The future and science of sinus lifting
Lateral Wall Sinus Lift/Graft – complications
Ultra-wide Implants
General complications

Lateral window sinus lift on models with Piezo

Session 8 TBA

THE TOTAL IMPLANT DENTIST
Bringing together bone biology,
prosthetic engineering and soft tissue

Live surgery observation
