THIS IS A HANDS-ON COURSE

IAADent is committed to providing the best possible education for the general dentist.

This course offers a unique educational opportunity featuring a proven curriculum for a successful implant practitioner.

In 8 two-day sessions, the IAADent Course provides participants with ample opportunity both to learn and to apply the new techniques. Each session incorporates hands-on and/or live surgery observation.

Participants will develop cases from their own practices, beginning with diagnosis and treatment planning, progressing through surgical guide fabrication and 3-D image analysis and culminating in implant placement.

Dr Lee will share his knowledge gathered from decades of learning and insight gained from working with different implant systems. You will learn many clinical pearls which can be applied in your practice.
